

MAKE A LUCKY RED ENVELOPE

PAGE
1

Red envelopes are a special Lunar New Year tradition. They are often filled with money or a small treasure and shared with family and friends. The color red is believed to bring joy, protection, and good fortune for the year ahead and the envelopes are often decorated with lucky pictures and symbols.

Make your own lucky envelopes! This project requires a color printer or have these sheets printed at your local copy shop. Cut the envelope template (PAGE 1) out on the solid line, fold along the dotted lines, and glue to secure. Decorate your envelope by cutting out and gluing lucky pictures and symbols from Lucky New Year: Colors (PAGE 2). Use paint markers to add or create your own details and designs. Place a note, drawing, or small treasure inside to share with someone special.
